PLACEHOLDER - DRAFT

Customisation Flyer

Adapting a proven climate investment to your site

What can be customised

Technical design

- Layout and structure for local infrastructure
- Capacity sizing to local demand
- Climate-specific components
- O&M arrangements

Investment & finance

- Local CAPEX/OPEX benchmarks
- Revenue model (self-consumption, tariffs, PPAs)
- Blended finance and grants
- Risk allocation

Governance & people

- Ownership and operator model
- Stakeholder engagement plan
- Skills and training needs
- Permits and local rules

ESG & impact

- DNSH / EU Taxonomy screening
- Co-benefits for local communities
- Monitoring KPIs
- Safeguards plan

How to use it

1. Run the Replication Suitability Assessment (RSA) for your site.
2. Review the improvement actions it suggests.
3. Use this flyer to discuss the customisation options with your team.
4. Follow the Replication Guide for the detailed steps.

Dummy document for the RSA prototype. Final content will be provided by CLIMINVEST partners.
