PLACEHOLDER - DRAFT

Replication Guide

From a proven project to a bankable replication

Contents

1. Characterise the original project
2. Identify the replication opportunity
3. Localisation assessment (climate, geography, institutions)
4. Adapt the technical design
5. Adapt the financial model and investment case
6. Assess institutional fit and capacity building
7. Implementation roadmap and go/no-go points
8. Validation and decision (Level 3)

Annex: templates, checklists and CLIMINVEST tools

Placeholder

This is a dummy version of the CLIMINVEST Replication Guide used to demonstrate the RSA tool. The final guide is being prepared by CLIMINVEST partners (WP4) and will replace this file at resources/replication-guide.pdf without any change to the RSA tool.

1. Characterise the original project

Content to be provided by CLIMINVEST partners.

2. Identify the replication opportunity

Content to be provided by CLIMINVEST partners.
